## COSHH Material Safety Data Sheets

Firstly, we apologise for our Material Safety Data Sheets not being available directly from our website.

Please call (0115) 9834323 for our Technical Department to request them.

*New legislation has been adopted that says all Material Safety Data Sheets given out must be recorded for Auditing purposes and as such cannot currently be accessible via [doff.co.uk](http://doff.co.uk).*

*We are working to upgrade our website so the option to download them will be available again in the future.*
